

Actividad4

The screenshot shows a web browser window with the title 'Actividad 4'. The address bar shows 'http://localhost:5500/actividad4.html'. The page content is an HTML form with the following elements:

- A heading:

Actividad 4
- A form with the action 'post' and method 'post'.
- Input fields for 'Nombre' (id='nombre'), 'Apellido' (id='apellido'), and 'Edad' (id='edad').
- A dropdown menu for 'Sexo' (id='Sexo') with options: 'Hombre', 'Mujer', and 'prefiero no decirlo'.
- A label 'Temas de la clase:' followed by two checkboxes: 'Tecnologia' (name='tema', value='TI') and 'Chatgpt' (name='tema', value='IA').
- A button labeled 'enviar'.

The browser's developer tools are open, showing the HTML structure of the page. The file explorer on the left shows the project structure, including 'Actividad 1 del Módulo', 'Actividad 2 del Módulo', 'actividad2.jpg', 'actividad4.html', 'index', 'index.html', and 'js app.js'.
